

Facilitator: Joakim Agnemyr

Participants: Joakim Agnemyr, Edwin Eliasson, Viktor Valadi, Mona Kilsgård

Not in attendance:

Date: 18/9/2018

Meeting Agenda

Third group meeting for group Yellow

§1 Objectives

- Decide what is acceptable as a runnable app.(Which should be done for the next meeting with Joel).
- Plan work time and next meeting
- What to use instead of MVC.

- §2 Reports

- Victor and Mona has updated the RAD document.
- Mona and Edwin has completed the domain model.
- Joakim has written more User Stories.

§3 Discussion Items

1. How developed does the app need to be until the next meeting with Joel?
2. Discuss schedule, plan meetings and work time.
3. How can we make our meeting protocols better?
4. MVP, a replacement for MVC.
5. Discuss how meeting should be held etc.

§4 Outcomes and assignments

Outcomes:

1. The app should be runnable, and the user should be able to see a list of some sort without the app crashing. After discussing this we also came to the conclusion that we should be more specific with our Epics, User stories and tasks. This this to simplify the work for ourselves as well as to make it easier for us to write requirements for the different user stories.
2. We have booked meetings and work time for this week and the next week in the project calendar.
3. This is something we have to ask Joel about.
4. Everyone will read about MVP until we understand it good enough to use it in our project.

5. After each meeting the protocol will be uploaded to the common google drive, and will not be pushed to the Git until everyone has read it and approved of it.

Assignments:

1. Mona, Edwin and Viktor will sit together on Friday and Thursday to work on the app. It is important that everyone understands the Model-View-Presenter model.
2. Since Joakim is not available this week until Sunday he will improve the User Stories at home.
3. Joakim will also add more Epics to the project.
4. Everyone will also get git, gradle and travis to work until Thursday so the project can proceed. We will also go through how git will be used in the group so everyone is on the same page.

§5 End of Meeting

Next meeting is Friday 11:00 21/9.
